

## EudraVigilance - European database of suspected adverse drug reaction reports

The European Medicines Agency publishes these data so that its stakeholders, including the general public, can access information that European regulatory authorities use to review the safety of a medicine or active substance. **Transparency** is a key guiding principle of the Agency.

## COVID-19 Vaccine Adverse Drug Reactions 43,898 DEAD

4,190,493 Injuries Through Apr 23, 2022

COVID-19 MRNA VACCINE MODERNA (CX-024414)
COVID-19 MRNA VACCINE PFIZER-BIONTECH
COVID-19 VACCINE ASTRAZENECA (CHADOX1 NCOV-19)
COVID-19 VACCINE JANSSEN (AD26.COV2.S)
COVID-19 VACCINE NOVAVAX (NVX-COV2373)

## by Brian Shilhavy Editor, Health Impact News

The European (EEA and non-EEA countries) database of suspected drug reaction reports is <u>EudraVigilance</u> <sup>[1]</sup>, verified by the European Medicines Agency (EMA), and they are now reporting 43,898 fatalities, and 4,190,493 injuries following injections of five experimental COVID-19 shots:

COVID-19 MRNA VACCINE MODERNA (CX-024414) [2]

COVID-19 MRNA VACCINE PFIZER-BIONTECH [3]

COVID-19 VACCINE ASTRAZENECA (CHADOX1 NCOV-19) [4]

COVID-19 VACCINE JANSSEN (AD26.COV2.S [5])

COVID-19 VACCINE NOVAVAX (NVX-COV2373) [6]

From the total of injuries recorded, almost half of them (1,914,927) are **serious** injuries.

"Seriousness provides information on the suspected undesirable effect; it can be classified as 'serious' if it corresponds to a medical occurrence that results in **death**, is life-threatening, requires inpatient hospitalisation, results in another medically important condition, or prolongation of existing hospitalisation, results in persistent or significant disability or incapacity, or is a congenital anomaly/birth defect."

A *Health Impact News* subscriber in Europe ran the reports for each of the four COVID-19 shots we are including here. It is a lot of work to tabulate each reaction with injuries and fatalities, since there is no place on the <u>EudraVigilance</u> <sup>[7]</sup> system we have found that tabulates all the results.

Since we have started publishing this, others from Europe have also calculated the numbers and confirmed the totals.\*

Here is the summary data through April 23, 2022.

**Total reactions** for the mRNA vaccine **Tozinameran** (code **BNT162b2**, **Comirnaty**) from **BioNTech/ Pfizer: 20,453 deaths** and **2,113,249** injuries to 23/04/2022

Pdf by: https://www.pro-memoria.info

The website RealNotRare.com has produced another video with testimonies of people suffering COVID-19 vaccine injuries and how difficult it is for them to receive any help as their injuries are denied to be related to the COVID-19 vaccines.

This is from our <u>Odysee channel</u> [8], and it is also on our <u>Bitchute</u> [9] and <u>Telegram</u> [10] channels.

<sup>\*</sup>These totals are estimates based on reports submitted to <u>EudraVigilance</u> <sup>[7]</sup>. Totals may be much higher based on percentage of adverse reactions that are reported. Some of these reports may also be reported to the individual country's adverse reaction databases, such as the U.S. VAERS database and the UK Yellow Card system. The fatalities are grouped by symptoms, and some fatalities may have resulted from multiple symptoms.
