30 marzo 2021

Ci sono più decessi negli Stati Uniti legati ai vaccini nel 2021 in meno di 3 mesi rispetto all'intero decennio passato.

Il numero di decessi legati ai vaccini quest'anno è assolutamente salito alle stelle. Secondo i dati del CDC, nel 2021 in meno di 3 mesi, abbiamo già assistito a oltre 1.750 morti a causa dei vaccini negli Stati Uniti.

Messages:

- VAERS data in CDC WONDER are updated every Friday. Hence, results for the same query can change from week to week.
- These results are for 2,749 total events.

Year Died ↓	Events Reported ↕	Percent (of 2,749) ↕
2011	120	4.37%
2012	104	3.78%
2013	95	3.46%
2014	102	3.71%
2015	95	3.46%
2016	118	4.29%
2017	86	3.13%
2018	90	3.27%
2019	78	2.84%
2020	106	3.86%
2021	1,755	63.84%
Total	2,749	100.00%

Note: Submitting a report to VAERS does not mean that healthcare personnel or the vaccine caused or contributed to the adverse event (possible side effect).

Notes:

Caveats: VAERS accepts reports of adverse events and reactions that occur following vaccination. Healthcare providers, vaccine manufacturers, and the public can submit reports to VAERS. While very important in monitoring vaccine safety, VAERS reports alone cannot be used to determine if a vaccine caused or contributed to an adverse event or illness. The reports may contain information that is incomplete, inaccurate, coincidental, or unverifiable. Most reports to VAERS are voluntary, which means they are subject to biases. This creates specific limitations on how the data can be used scientifically. Data from VAERS reports should always be interpreted with these limitations in mind.

Questi dati provengono dal database VAERS del CDC:

“Il database VAERS (Vaccine Adverse Event Reporting System) contiene informazioni sulle segnalazioni non verificate di eventi avversi (malattie, problemi di salute e / o sintomi) a seguito dell'immunizzazione con vaccini autorizzati dagli Stati Uniti. Le segnalazioni sono accettate da chiunque e possono essere inviate elettronicamente su www.vaers.hhs.gov . ”

L'età di coloro che sono morti combatte con gli anziani:

Sulla base di un rapporto del CDC fino al 16 febbraio 2021 , c'erano oltre 55 milioni di persone che hanno assunto il vaccino COVID-19 e la maggior parte di questi vaccini sono stati prodotti da Moderna e Pfizer / Biontech:

Summary of v-safe data as of February 16, 2021

	Pfizer-BioNTech	Moderna	Total
People receiving 1 or more doses in the United States*	28,374,410	26,738,383	55,220,364
Registrants completing at least 1 v-safe health check-in	1,776,960	2,121,022	3,897,982
Pregnancies reported to v-safe†	16,039	14,455	30,494

Sebbene la percentuale di individui deceduti a causa del `` vaccino " COVID-19 sia minuscola (meno dello 0,003%), il numero di decessi nel 2021 è già OLTRE (71 volte) la media degli ultimi dieci anni.
